Corporate Relocation Services

LesseL Residential Lettings

Corporate Relocation Services

Lessel Corporate Relocation department specialises in assisting and providing domiciled and International guidance to corporate companies when helping to find suitable and exclusive accommodation for their employees relocating to London.

We provide a dedicated property manager who gets to fully understand your financial budget and coordinates and oversees from the start of your property search, including tenant referencing, payment collection and tenancy preparation. Once all the standard letting formalities are complete they will supply the new company tenant with the door keys ready for their move to the new property. We provide a wide range of luxury apartments located in West, Central and East London. Our vast relocation experience and property knowledge will assist your company when arranging and undertaking your initial property search to find suitable accommodation for your trusted employees.

When relocating to London we do fully understand that this can be a stressful time for your employees and their families especially as we understand working professionals with busy work schedules require accommodation as a matter of urgency but also require travel facilities within a short commutable distance to their place of work.

All Lessel luxury apartments come furnished and provide a modern city living environment and are located in close proximity to local amenities including shops, Bars, Restaurants and London transport links.

All properties are fully managed by Lessel Residential Lettings and we handle all maintenance repairs via our tenant report online system and contractor appointments plus the handling of all tenancy queries or compliance matters raised by tenants throughout the tenancy for added security and piece of mind.

Our services also extend to providing tenant employees with general travel information and schools information for families moving their children to reside in London at the outset of their tenancy.

Short Lets

Short Let accommodation is usually a maximum of three-month period and is provided on a common law licence arrangement.

Your company may need a short term let to accommodate your employees for instance that are working on a short-term work contract, but the travelling hours per day are just not viable, so this gives you the option of renting an apartment on a short-term basis, that would usually cost per month less than what a London hotel would charge for a month's stay but with the comforts of home.

Again, our modern apartments are located close to London transport links and come fully furnished.
